Branded Products

Burpres Metal Sanayi A.Ş. was founded in 1982 in Bursa, Turkey. It started its activities with the production of **Automotive Spare Parts** and **Sheet Metal Molds**.

In the early 2000s, it was moved to its new location with a closed area of 1200 m2 in Nilüfer Organized Industrial Zone.

Since its establishment, performing its production with **up-to-date production technologies**, Burpres Metal Sanayi A.Ş. has added **Plastic Mold Design And Manufacturing Competency** to its Sheet Metal Mold Design And Manufacturing Competency.

Thanks to these competencies, today, Burpres Metal Sanayi A.Ş. is an Agile Company who owns **self developed patented products in metal and plastics** appealing to **various industry sectors**.

Our **mission** is to increase our brand recognition in the global market and to ensure that our company contributes more to the national economy.

In the light of our mission, it is proud of us contributing to the national economy by selling its self developed patented products not only to domestic market but also international markets.

Established Competency

- : in 1982
- : Mechanism Design
- Metal, Aluminium, Plastics Component Design
- Mould (tool) Design and Production (sheet metal, aluminium injection, plastic injection)
- Machining
- Sheet Metal Parts Production with Press Machines
- Prototype

Certificates Export

- : ISO 9001
- : Europe, South America, Asia
